Career Objective

Motivated MCA student aspiring to work as a Software Developer, seeking an entry-level opportunity to apply my skills in Python, Java, Web Development, Machine Learning, and problem-solving to build efficient software solutions while continuously learning and contributing to organizational success.

Education

Master of Computer Applications(MCA)	Aug 2024 – May 2026
Swarnandhra College of Engineering Technology	CGPA:7.9
Bachelor of Business Administration(BBA)	Nov2021 – May2024
Sri ASNM DegreeCollege	CGPA:8.0

Technical Skills

- **Programming Languages:** Python, Java
- **Web Development:** HTML5, CSS3
- **CoreCS:** DataStructures and Algorithms, OOP, Problem Solving
- **Databases:** SQL, MongoDB
- **Technologies:** MachineLearning, DeepLearning

Projects

Traffic Violation Detection System

- Developed a real-time traffic violation detection system using Python, OpenCV, and YOLOv8.
- Achieved 87% detection accuracy on a dataset of 5000+ images.
- Implemented preprocessing, augmentation, and evaluation workflows.

Digital Forensic Tool kit

- Built a machine learning-based forensic analysis system for file classification.
- Designed modular Python components for scalability.
- Integrated database concepts for structured storage and retrieval.

Liver CT Image Segmentation using U-Net

- Developed a deep learning model for liver segmentation using U-Net architecture.
- Implemented using FastAI framework for efficient training.
- Designed custom evaluation metrics to improve segmentation performance.

Internship Experience

Quality Checking Intern, Schneider Electric, Hyderabad	Feb2024–May2024
• Performed quality analysis and documentation within enterprise workflows. • Collaborated with teams to ensure compliance with standards. • Supported data-driven quality evaluation and process improvement.	

Extra-CurricularActivities

- Participated in technical workshops and seminars on programming and machine learning.
- Practiced coding and problem-solving on online platforms.
- Actively involved in academic project presentations and team discussions.
